

## Hospital.CSV

### Description:

This report contains information about hospitals in England. NHS Choices considers hospitals as locations that provide predominantly inpatient services.

### Contains:

This reports contains address details and contact information. The IsPIMSManaged flag refers to instances where the hospital is responsible for updating its information on the NHS Choices website using our Provider Information Management System (PIMS).

### How Maintained:

Hospitals are sourced from Organisation Data Service (ODS), which is part of the Health & Social Care Information Centre (HSCIC). NHS Choices has provided the functionality that allows hospitals to access their profiles using our Provider Information Management System (PIMS) to update the information we hold about them. Hospitals or their parent organisations that have taken up this privilege are able to update their respective profiles.

### Code Formats:

Hospitals are identified by an ODS code in addition to an NHS Choices internal identifier.

The character “-” has been used as delimiter on this file to factor in possible commas within cells.

### File Format:

Column	Field Content	Size	Mandatory	Notes
1	OrganisationID		Yes	Internal Unique Identification
2	OrganisationCode		Yes	Unique ODSCode
