

PharmacyOpeningTimes.csv

Description:

Pharmacy opening times report.

Contains:

Opening times indicate when the branch is open for NHS contracted services. Additional opening date, where this exists, refers to bank holidays or other dates where the opening times would be different from normal opening times.

How Maintained:

NHS Choices has provided the functionality that allows pharmacy practices to access their profiles using our Provider Information Management System (PIMS) to update the information we hold about them. Many pharmacies have taken up this privilege and update their profiles regularly. Pharmacy practices that have taken up self-editing are responsible for maintaining their own opening times information.

Code Formats:

An internal identifier is used to represent the pharmacy practices. In order to fully interpret the contents of this report, pharmacy.csv file – also downloadable from the NHS Choices website – should be used as a reference.

The character “-” has been used as delimiter on this file to factor in possible commas within cells.

File Format:

Column	Field Content	Size	Mandatory	Notes
1	OrganisationID		Yes	Internal Identification referencing the Pharmacy.csv file where multiple [OrganisationID] refers to one Pharmacy
2	WeekDay	10	No	[WeekDay] = Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday
3	Times		No	
4	IsOpen		No	TRUE = Is Open FALSE = Is Not Open
5	OpeningTimeType		No	[OpeningTimesTypes] = General, Additional
6	AdditionalOpeningDate		No	Only populated where [OpeningTimesTypes] = “Additional”
